

DEVYANSH GUPTA

devyanshgupta04@gmail.com | +91 9987237913 | linkedin.com/in/devyansh-gupta04 | Bengaluru, India

SUMMARY

MCA candidate specializing in **Storage & Cloud Technology** with **AWS Academy Solutions Architect** training, **CI/CD pipeline** exposure, and **Python/SQL** development experience. Published cloud-security researcher (Q1 journal) with a proven record of leading technical teams and deploying production-style systems. Seeking a **DevOps Engineering Internship** to build on cloud-infrastructure, automation, and backend fundamentals.

TECHNICAL SKILLS

- **Cloud & Infrastructure:** Amazon Web Services — Academy Solutions Architect training (compute, storage, IAM & VPC fundamentals); cloud architecture; **CI/CD pipelines**
- **Programming & Scripting:** Python, SQL, JavaScript (React); scripting and automation
- **Containers & CI/CD:** Docker fundamentals (introductory training completed — [learndocker.online](https://www.learndocker.com)); **Jenkins** basic CI pipeline knowledge
- **DevOps & Tooling:** Git version control, CI/CD concepts, Jira, build-and-release workflows
- **Networking:** Network architecture (LinkedIn-certified); TCP/IP, DNS, HTTP/HTTPS fundamentals
- **Security & Testing:** Penetration testing, bug bounty hunting, QA & software testing, vulnerability reporting

EDUCATION

JAIN (Deemed-to-be University), Bengaluru — Master of Computer Applications, *Storage & Cloud Technology*
CGPA: 8.17 / 10 • August 2025 – Present

Sailee Degree College, Mumbai — Bachelor of Computer Applications
CGPA: 7.03 / 10 • March 2022 – June 2025

Mary Immaculate Junior College — Class XII: 78.9% (2022) • St. Louis High School — Class X: 79% (2020)

CERTIFICATIONS

Amazon Web Services — Academy Cloud Solutions Architect (Training Badge) • **LinkedIn Learning** — Programming Generative AI • **LinkedIn Learning** — Network Architecture

EXPERIENCE & LEADERSHIP

Technical Team Lead (Intern) — Nexathread Pvt Ltd | *Remote • June 2026 – August 2026*

- Spearheaded an internal business-tool project end-to-end, directing a team of four interns across planning, development, and delivery
- Coordinated requirements, reviewed progress, and guided implementation decisions as the technical point of contact

Freelance Cybersecurity & Software Testing — Self-Employed | *Remote • 2023*

- Conducted penetration testing, bug-bounty hunting, and comprehensive QA for a gamified marketplace platform
- Identified critical vulnerabilities and delivered actionable security reports that protected client intellectual property

Executive Member, AWS Club — Jain University | *Bengaluru • January 2026 – Present*

- Lead cloud-technology workshops and networking events for an AWS-sponsored student cloud community

Executive Member, IEEE Student Chapter | *Bengaluru • January 2026 – Present*

- Organized and hosted the IEEE IC-AIDA-2026 international conference; coordinate IEEE-sponsored technical events and workshops

PROJECTS

Abhyas — Study Planner & Revision Platform (*TypeScript, React Native/Expo, Supabase, Turborepo* · github.com/Devyansh-Gupta/abhyas)

- Architected a pnpm + Turborepo monorepo (mobile app, web app, shared logic engine, database package) guarded by ~175 automated tests including golden-test suites
- Built CI/CD on GitHub Actions: typecheck-and-test gates on every push plus on-demand signed release-APK artifact builds
- Integrated a Supabase PostgreSQL cloud backend — schema, row-level security policies, and Google/email OTP authentication — with offline-first SQLite operation-log sync

PolyBot — Low-Latency Arbitrage Trading System (*Python, WebSockets, cloud deployment*)

- Built a market-data engine consuming live WebSocket feeds, maintaining order books with sub-millisecond detection and deterministic replay-based backtesting
- Deployed on cloud infrastructure colocated near the exchange; validated through extended paper-trading runs

MEDBridge — Full-Stack Team Communication App

- Designed and developed an internal communication platform (conversation threads, channels, collaboration features) used as a live college convention project

InsightForge — Multimodal Research Assistant (*work in progress*)

- Building a persistent AI research assistant that processes PDFs, research papers, charts, formulas, and screenshots using multimodal LLMs and vector databases
